

How Intuitive rapidly engaged and hired talent at an event on-site with LiveHire and Raise Recruiting

Company Background

Intuitive, a pioneer of robotic-assisted surgery, engaged with Geometric Results Inc (GRI) to implement a Managed Direct Sourcing (MDS) program to help achieve their contingent workforce goals. GRI brought in Raise Recruiting for the sourcing and curation of candidates with LiveHire's Direct Sourcing Technology.

Raise Recruiting and LiveHire leveraged the Intuitive brand to attract and engage Assembly Technicians at a recent careers fair.

Working with LiveHire has been an incredible experience. The team is always willing to go the extra mile to find solutions whether its for everyday work or unique projects.

I have seen extensive development over the time we have partnered with LiveHire. They have created a platform that enables more effective communication with our candidates and provides customized workflows for all our hiring needs.

We recently made 57 offers in one day at a job fair. LiveHire created a customized workflow that enabled us to track candidates through a multi-step interview process onsite at our client. LiveHire helped us to quickly engage with our pre-vetted talent community members. We were able to invite them to the event using SMS and our candidates were responding in as little as a minute. The day of the event registration process was seamless with the help of QR codes and the ease of LiveHire's application process. Candidates walked away with a job offer and we instantly had their resumes and contact information we required. The custom workflow made it possible for us to pull specific metrics for our client.
